

# Stone mini-beasts!

## BRING NATURE HOME ACTIVITY

These stone mini-beasts make lovely decorations that you can pop by a flower pot or your front door to add a bit of brightness and a smile to your day.

1

Collect a variety of different stones and get your paint and pens at the ready!

2

Draw your design onto the stone. Ladybirds are nice and easy to start off with, but you can create any of your favourite mini-beasts from beetles to bumblebees.

3

To make our ladybird we painted the body red first and when the paint was dry we added the black spots and lines with felt pen.

You can add PVA glue to your paint to stop it from running.

4

When your mini-beast is dry you can carefully cover it in PVA glue or varnish. We added goggly eyes too!

Don't forget to share your mini-beast creations with us on Facebook and Twitter
