## About the wood...

Planted in 2008-09, Parlour Barn Woodland is located in the Nidderdale Area of Outstanding Natural Beauty, approximately 1 mile north of Thornthwaite.

This site of new broadleaved woodland covers 7.4 hectares and is planted with approximately 7,125 native broadleaf trees and shrubs.

Species include a mix of Ash, Oak, Birch, Rowan, Alder, Willow, Hawthorn, Holly and Blackthorn, complimenting the existing woodland cover in the local area. The trees have been individually protected with tree guards to prevent rabbit damage.
