planted by volunteers from our business partners

An estimated

1,000

tonnes of carbon captured over the next 50 years

207 metres

of hedgerow planted

154

Volunteers from 13 businesses across the region

What did you enjoy most about volunteering?

“ Getting into nature and doing something good for the environment, along with meeting different colleagues that I don't normally come into contact with, and getting to know YDMT colleagues better.

The event was brilliant and the YDMT team were excellent, Really enjoyed the day and the sunshine!! Would definitely do it again.

”

A huge thank you from all at YDMT for helping us support the people, landscape & wildlife of this special place
