

MARSDEN AES LTD – Background Information

Marsden AES Ltd. have a distinguished track record in preparing, developing and delivering soft engineering and habitat solutions in a wide range of contexts. This includes environmental conservation projects, public rights of way maintenance and moorland management. Our 15 years of experience has enabled us to build up a sound customer portfolio with our range of projects extends across the North of England and Scotland with the majority of the company's work being undertaken within sensitive and remote upland environments.

Director Steve Marsden, the founder of the company, leads the team with his experience of working machinery within sensitive environments and expertise in rural skills.

This apprenticeship vacancy offers an exciting opportunity to become part of a small team based near Hellifield learning practical land based skills along side more specialist restoration techniques this also includes the opportunity to operate a variety of machinery.

The ideal candidate should be hard working and willing to work as part of a team alongside having enthusiasm towards our natural environment.
